

New Program!

PZ Super Stars

A movement program for girls and boys ages 6-12 and 13 and up with developmental and physical challenges.

*This program is designed to enhance the motor skills, cognitive development and social skills in children and youth who face behavioral, cognitive and/or physical challenges.

*A 30 minute class will allow your child to explore the endless possibilities of dance. Expressing themselves through creative movement, music and dance.

*Classes are taught under the guidance of instructors who have been trained in Special Needs Education. Their goal is to spread the love of dance and the benefits that it has on the development of children and youth with special needs. They have seen first hand the positive effects music and movement have therefore, they want to share that with individuals that may not have the chance.
